

TaylorMade Academy

— FOR SCHOOLS, PROGRAMS & ORGANIZATIONS

Run your next **cohort** on TaylorMade Academy.

One home for your program: sign-up, a live class room, every class recorded, team spaces, and one screen for the person running it all.

LIVE NOW

Home of the AUC Open Payments Innovation Lab:
33 students from six HBCUs, live every week.

Cohorts & campus hubs · taylormadeacademy.com/partners

— THE IDEA

A cohort needs six things. Here they live in one place.

A cohort is a group of people who start together and learn together. Everything it needs sits behind one sign-in, with your name on the door.

1 Sign-up forms

2 A video meeting app

3 Somewhere to keep recordings

4 A group chat

5 A roster spreadsheet

6 Reminder emails

Your program on Taylormade Academy

ONE SIGN-IN

Your branded home

Your logo, colors and address. Installs on a phone.

Sign-up and approvals

Apply, approve with a tap, invite latecomers.

The live class room

Opens in the browser. Nothing to download.

Every class, kept

Replays with chapters and a transcript.

Team spaces

Chat, files and a room for every team.

The coordinator's screen

Roster, sessions, attendance, reminders.

students on the roster

6

HBCUs in one cohort

Weekly

live classes in the room

2

tracks, business then fintech

Orientation

September

Track One

Business, fall

Track Two

FinTech, spring

Final Showcase

March

The AUC Data Science Initiative runs the Lab, with guest facilitators teaching in the same room. Registration, classes, replays, team spaces and the showcase all live on Taylormade Academy.

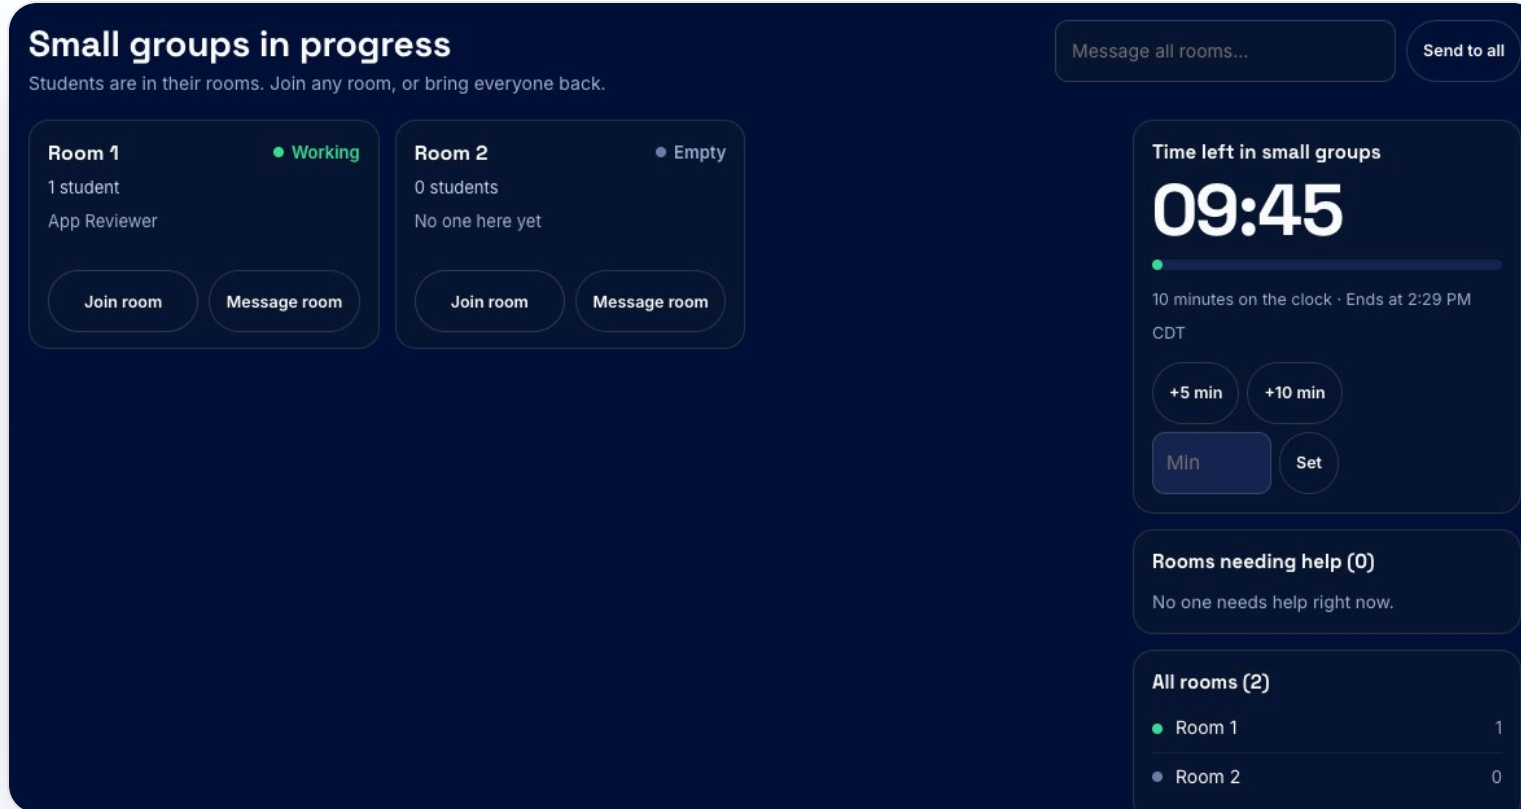

A class room that opens in the browser.

The real room. Small groups on the clock, the question line open, the recording saving itself.

- 1 **Sign in and you're in.** Nothing to install, on a laptop or a phone.
- 2 **A question line.** People raise a hand in order, and you bring them on stage.
- 3 **Everyone can share.** Polls, chat and screen sharing for the whole room.
- 4 **Built-in tools.** A whiteboard, class files and live captions.
- 5 **A class never ends by accident.** Leave only takes you out, End takes two taps, and every class records itself.

Small groups, run from the front of the room.

Split the class in two taps. Every group gets its own room, and a clock everyone can see.

From one board you can see who is in each room, drop into any of them, message all of them at once, and add five or ten minutes.

Groups that ask for help show up on the board, so nobody waits in silence.

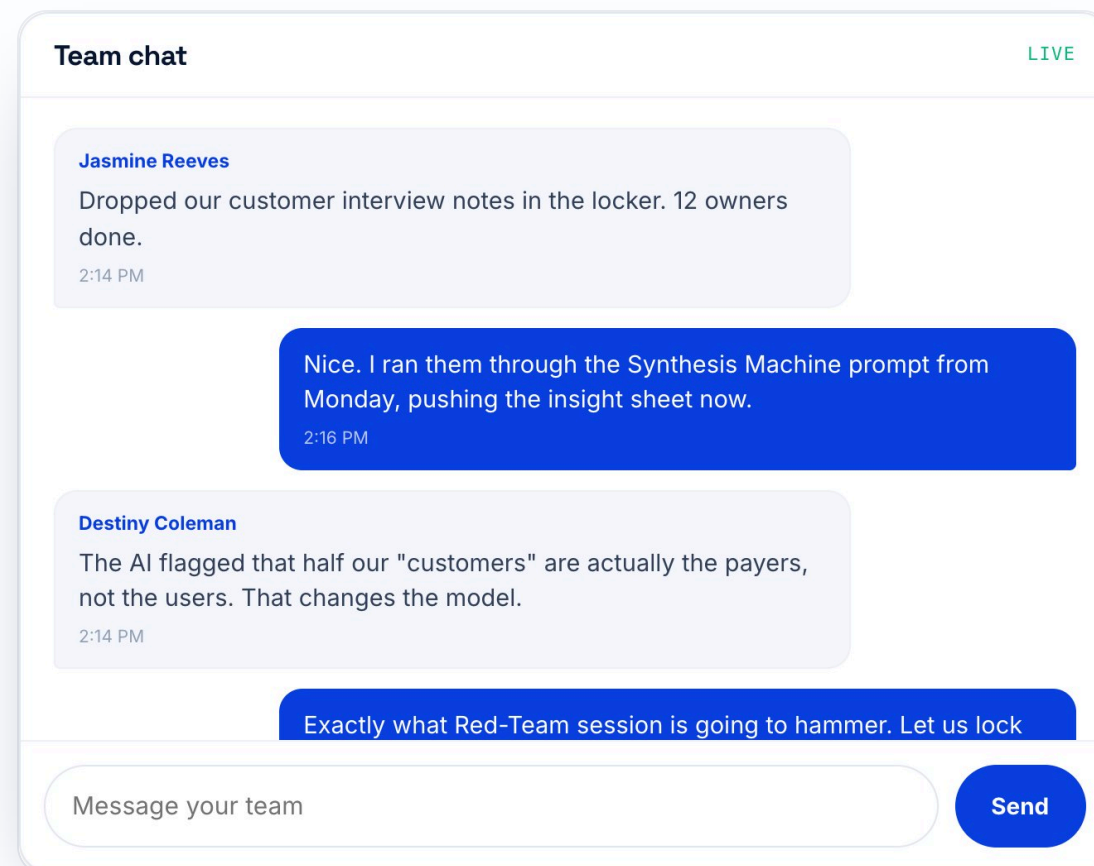

Every class is kept. Every team keeps working.

Replays that do the note-taking

The room records every class on its own. Each replay gets chapters, a transcript and the files from class. Your coordinator looks it over, then publishes it for the cohort.

Teams with a home of their own

- 1 A team page, a chat, and a locker for files and checkpoints.
- 2 A standing room the team can meet in any time.
- 3 Judges score pitches on a leaderboard, and each team can have a public showcase page.

A team's space in the hub. Their chat, their files, their room. (Sample data.)

One screen for the person running it.

- 1 **Roster and approvals** in one list, with a one-time invite link for anyone who joins late.
- 2 **Sessions and materials** added in minutes. No developer needed.
- 3 **Attendance** in one click per person.
- 4 **Calendar invites** and a reminder email 30 minutes before class.
- 5 **A "Need help?" button** in class that reaches your team.

The coordinator's view. Sessions, files, recordings and attendance. (Sample data.)

One hub. Every office.

Advancement Donor updates, ways to give	President Town halls, campus updates	Events The campus calendar	Learn Workshops, AI literacy
Students Student life, news	Career Employers, office hours	Alumni Tracks and reunions	Admissions Info sessions for families
Outreach Community programs	Board Trustee materials	Community A feed and messages	Showcase Student work, in public

Built with you, office by office. Start with one space and add the rest when you are ready.

One place in place of many subscriptions

Each office gets its own space behind one sign-in, and the hub installs on a phone as your campus app.

Events app → A calendar with add-to-calendar

Webinar tool → The live room, for any office

Community app → Feeds, messages, team spaces

Phone app → Installs from the browser

Built around how you already work.

Your name on it

A partnership by default: your brand out front, our platform underneath, both names on the door. Carrying your name alone is an option too.

Beside your LMS

Your LMS (learning management system) keeps grades and credit. This sits next to it and does not replace it.

We teach, or you do

Nelson teaches AI, design, photo and video. Or your own people teach in the room, the way the Lab's guest facilitators do.

Your people, your records

Every room is sign-in only, and replays stay drafts until your coordinator publishes them.

Your organization × **Taylormade Academy**

— WHO YOU WORK WITH

Nelson Taylor

Founder, Taylormade Academy · Creative director, Taylormade Creative · Dallas–Fort Worth

Fourteen years directing real work for brands and businesses, with AI now part of how his studio runs every day.

- Built the platform the AUC Open Payments Innovation Lab runs on, and supports it week to week.
- In June 2026, facilitated the Johns Hopkins-funded AI agent workshop for the AUC Data Science Initiative.
- Runs public AI workshops for business owners, and a working photo and video studio.

From a first call to a first class.

1

Talk

A 20-minute call. Who is in the program, how many people, how often you meet.

2

Plan

A written plan: the sessions, the spaces, and who teaches.

3

Set up

We build your space, bring in your brand and roster, and train your coordinators.

4

Go live

First class. Every class after that lands in your library.

A cohort program

A season or a school year of live classes, with the hub around it.

A campus hub

Spaces for the offices you choose, open all year.

About pricing. We set it after the call, based on how many people, how many live classes, and who teaches.

Start with a 20-minute call.

Tell us who is in your program and how often you meet,
and we will bring a plan.
